Ideas on how to be more visible for our audience

Key points

1. What are the current trends?
2. How are we visible on Google search?
3. Website structure
4. Content ideas
5. How this new website restructuring connects with PortXL strategy?

1. What
are the current trends?

- As PortXL, we need to sustain our network (including end users) and attract new target audiences. Therefore, here are some main trends, which PortXL can follow:

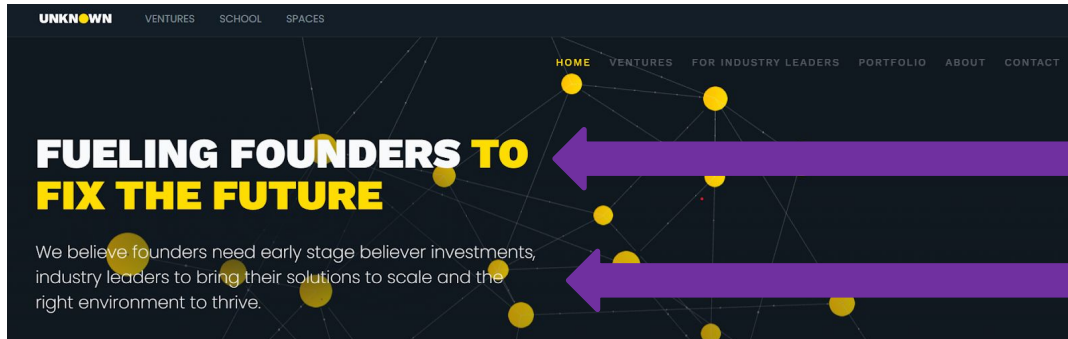

Strong branding and
clear storytelling

Video content

Personalisation

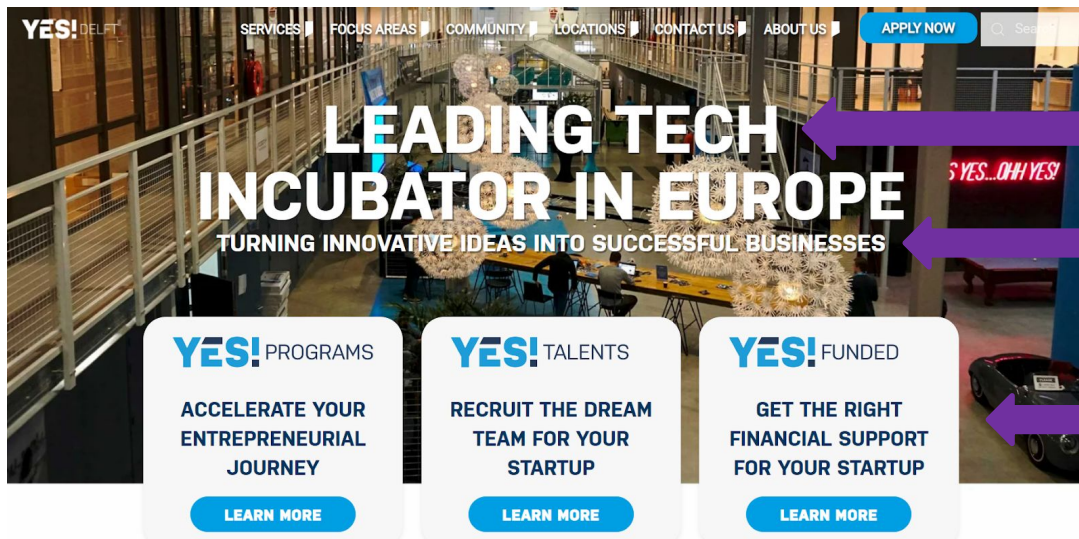

- After seeing competitors, this is how they convey the story:

Here you can see clear slogan, which identifies the company

Short description of what company does by using concrete keywords

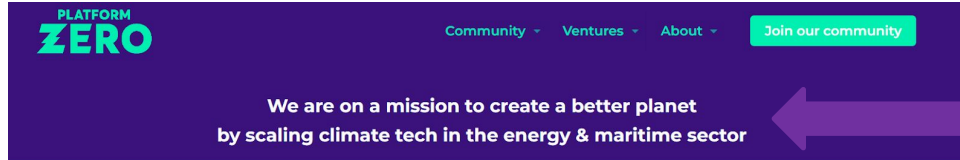

Here you can see clear slogan, which identifies the company

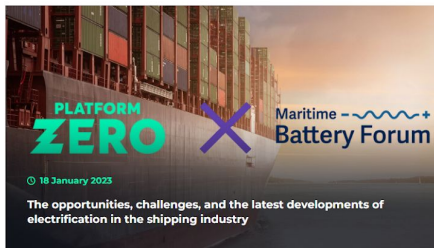

Short activity description

Main activity pillars of the company

- More examples:

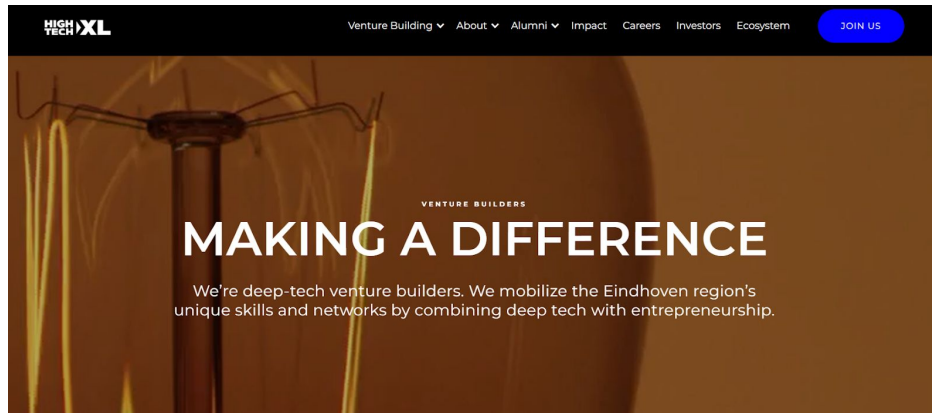

Here you can see mission of the company

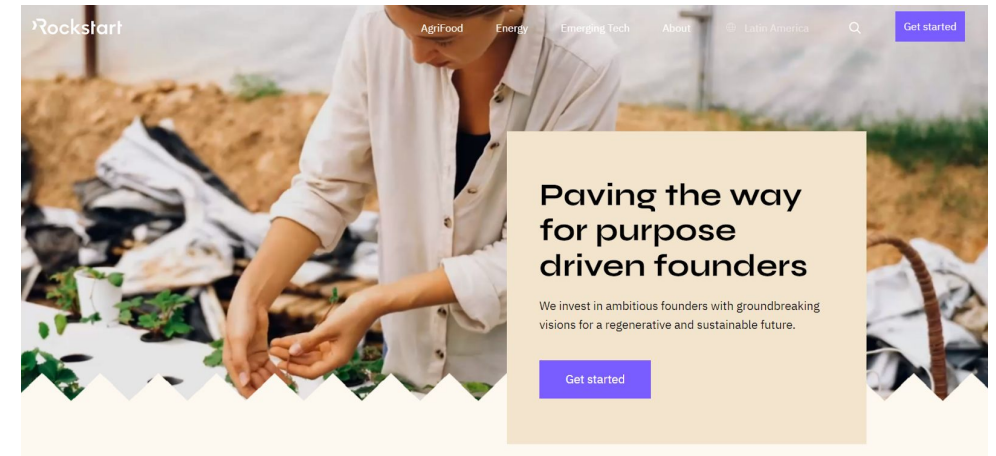

And then latest news, which gives a reader nice flow

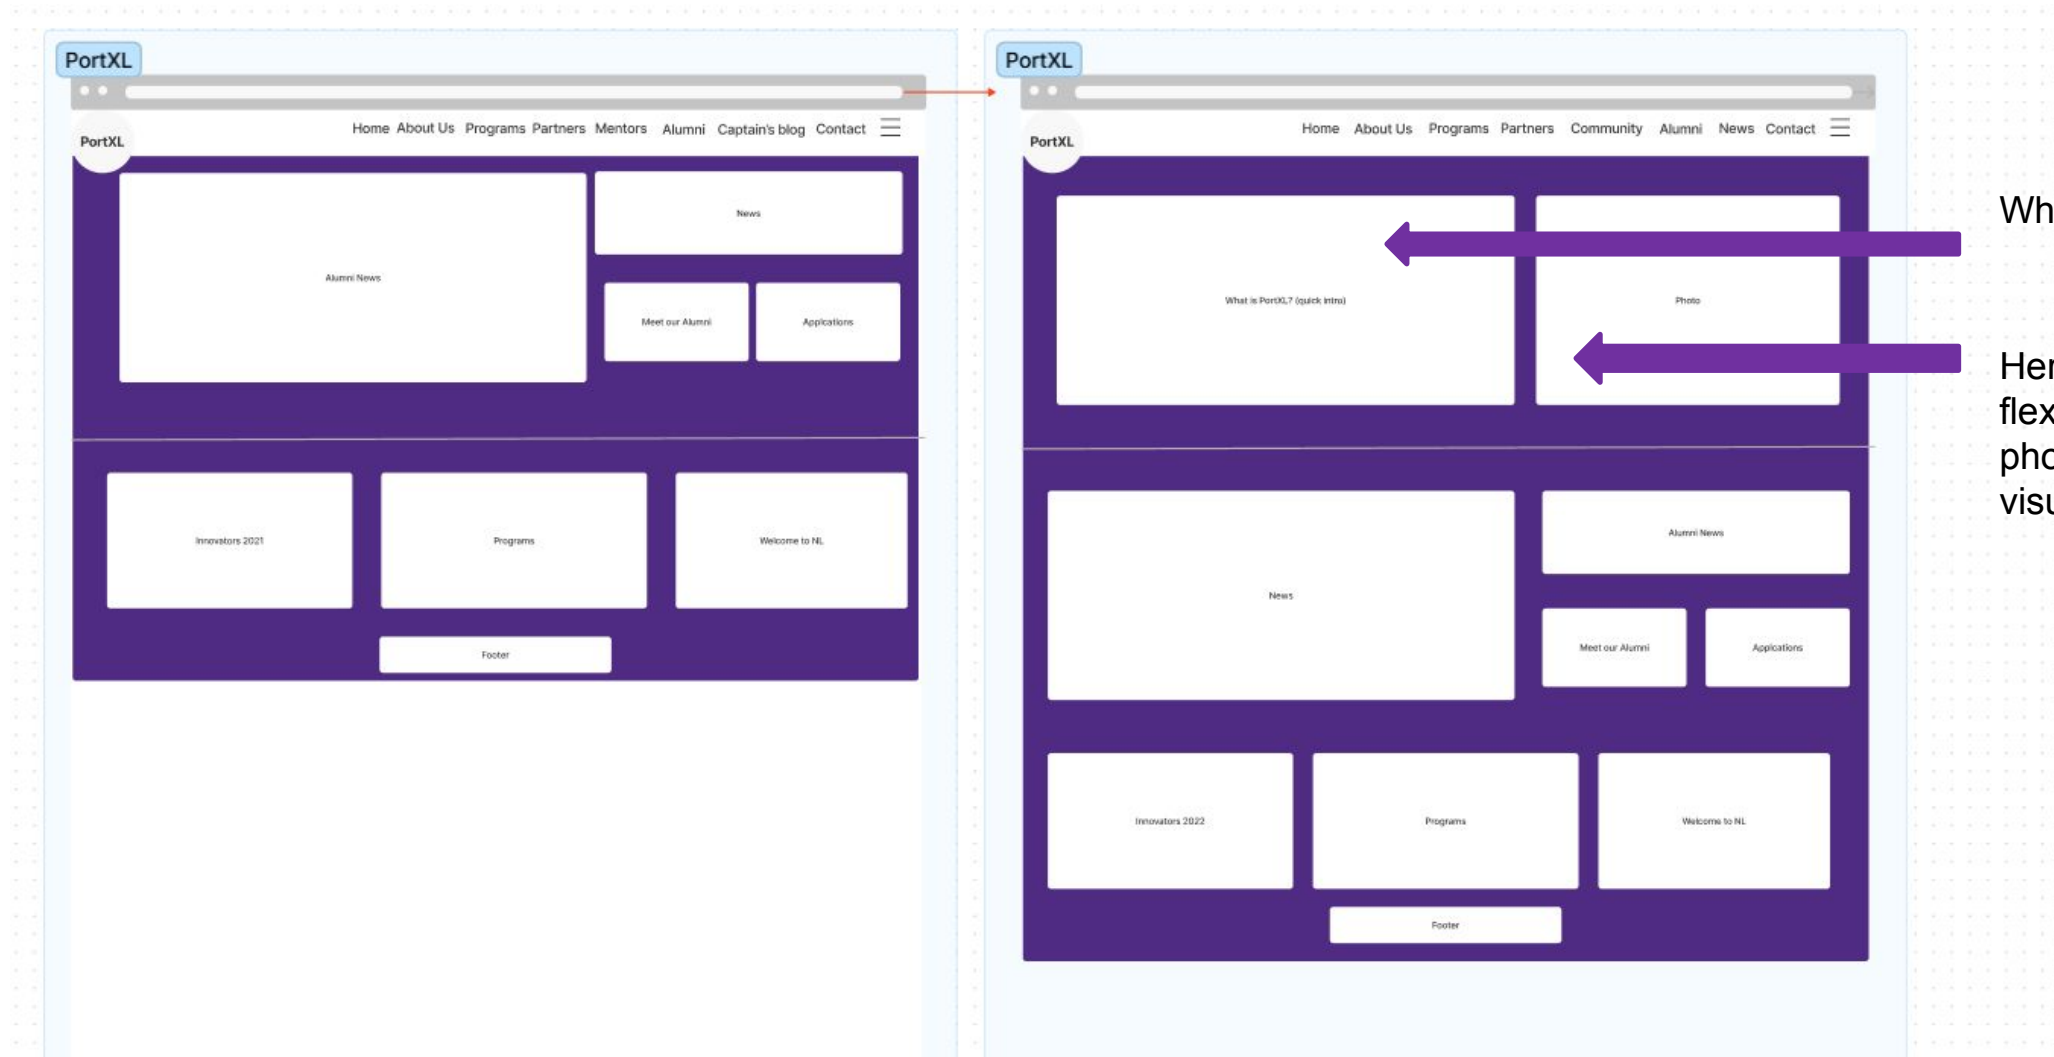

The latest in Climate Tech

Similar structure

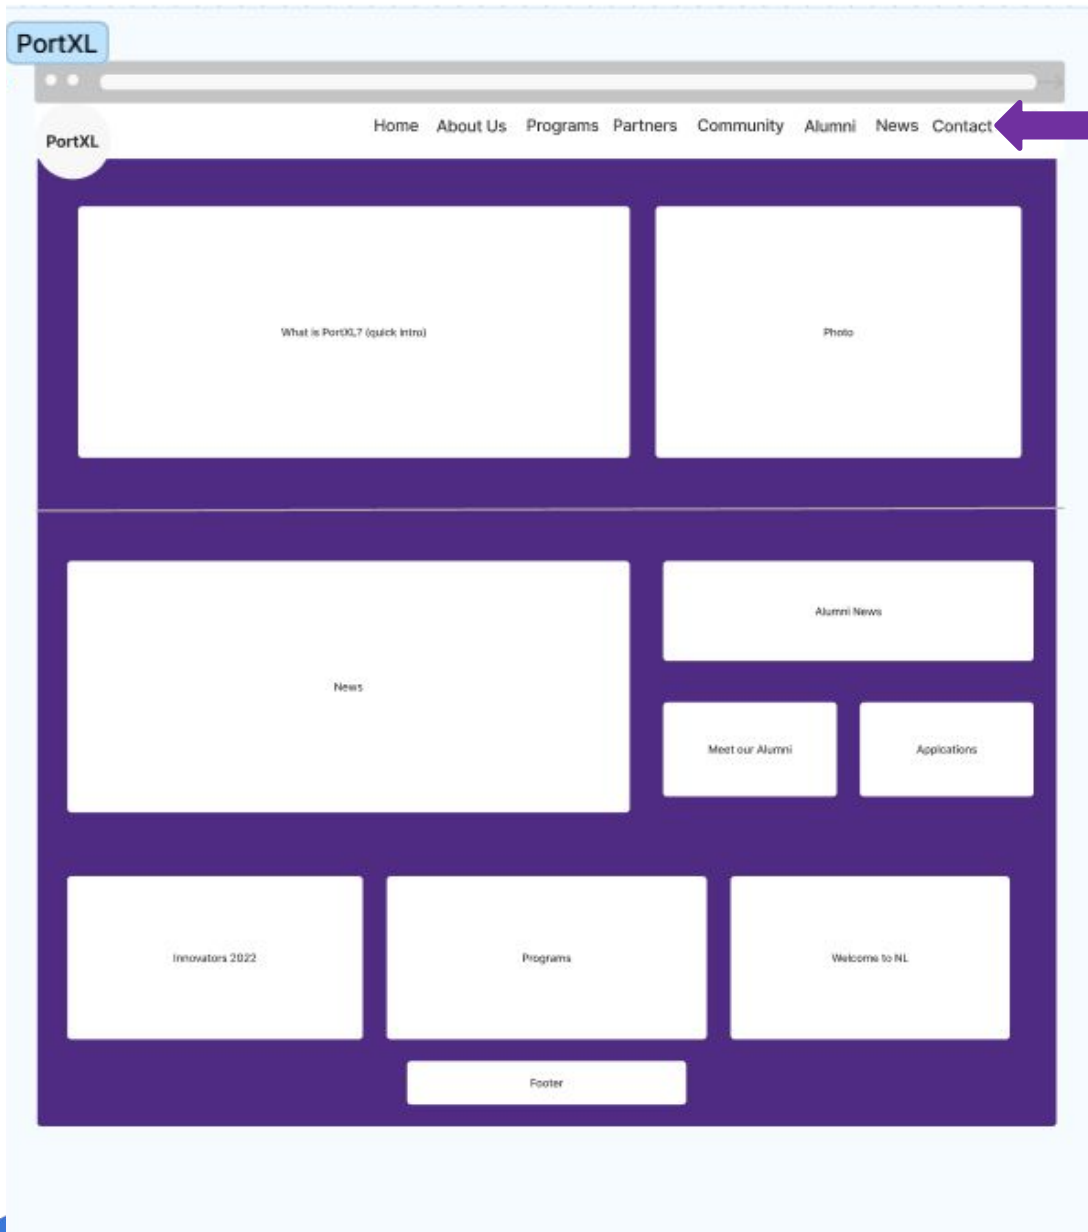

- What can we change?

What is PortXL?

Here we can be flexible, either add a photo/graph/video --> visual content

The headers should be shorter and attract different audience (our selected target audience).

For instance:

- Partners --> content about possibilities on how to become a partner and what are the benefits
- Community --> Talk about current network and what are the benefits of that
- Alumni --> We update our Alumni list with short intro of the companies
- News --> All news that comes to PortXL goes there

The question is can we define our target audience? (Strategy update)

2. How are we visible on Google search?

- SEA/SEO

Featured Snippet of PortXL

- Create one with our google account. Why?
- The advantages (source: <https://www.cocomore.com/blog/seo-trend-outlook-2023>):
- Featured Snippet results receive the greatest attention because of their position at 0 on Google. The snippets can contain text images, lists and videos.
- Users receive their search results directly in Google. It also serves as an introduction to a topic and encourages users to click on the website.

This an example of featured Snippet

3. Website structure

Current Website

1.Home page <https://portxl.org/>

- 1.1 Alumni Feature
- 1.2 News
- 1.3 Meet our Alumni
- 1.4 Applications
- 1.5 Meet 2021 innovators
- 1.6 Our programs
- 1.7 Welcome to NL

New Website

Show the services we offer on the front page – discussion with the team

Swap News with Alumni feature -> to highlight what is happening now especially when it comes to the events

1.5 Update the page + add 2022 cohort (that includes updated partners, SU's logos and videos from PoR)
<https://portxl.org/2021-innovations/>

In conclusion: we lack an introduction to our target audience, we need to add a window with either our slogan or what we do in one sentence. We need to simplify the headers and determine what we need to show. Set a concrete focus.

4. Programs

- 4.1 Rotterdam
<https://portxl.org/programs/rotterdam/>
- 4.2 International
<https://portxl.org/programs/international/>

4.2 Remove international page since we don't have any activities with Antwerp and Singapore - > keep only Rotterdam page

- Since we will have several programs/workshops, we need to inform our audience --> in case that happens new tabs will be created accordingly. For example: 4.1 Rotterdam and under that talk about workshops and etc.

5. Partners

<https://portxl.org/partners/>

Change into Shakedown 2022 (VIDEO part)

Add more partner testimonials (ask Hedi and Christel to get some)

WHAT OUR PARTNERS SAY

"To create a better world for future generations Van Oord relies on innovative power and partnerships. PortXL allows us to combine our approach with outside innovation and knowledge of new technologies. This is exactly what we need, and we are proud to be one of the lead partners in PortXL."

Maurits den Broeder, Managing Director, Van Oord Offshore

6. Mentors

<https://portxl.org/mentors/>

- Mentors -> change to Community
- Talk about PortXL community, and ecosystem -> make it more clear
- Add 2022 Shakedown video
